WOODWORKING TARGET GROUP:

This class is specially designed for carpentry skills-interested persons with the aim of gaining vast knowledge in Timber and Wood sector. Having been a market leader for years, we aim to;

- Enhancing futures by creating an environment of innovation, equity and excellence through education.
- Revamping the existing Technical and Vocational Training schools.
- Driving the job creation agenda and thus growing the Kenya economy at large.

Woodworking class is also perfect for you if:

- You are in any profession and want to learn basics in wood working.
- You are passionate and desire to hand-make items that are unique and beautiful.

Your Takeaway YOU WILL:

- Finally get to expose your passion and create something from start to finish
- Increase your employability chances in woodworking.
- Advance your woodwork skills that resonates with the current industry trends.
- Get support and more clarity for needs-based and practice-oriented training courses.
- Save your money as you satisfy your hobby or career while giving you a therapeutic and meditative time.
- Help in driving the economy by promoting quality jobs.

THE FORMULA:

Classroom instructions, hands-on practicals, project based learning, assisting skilled carpenters, on-the-job-training.
